BE A PART OF THE BIGGEST THROWING PROGRAM! THROWING ZONE ATHLETICS LEAGUE!

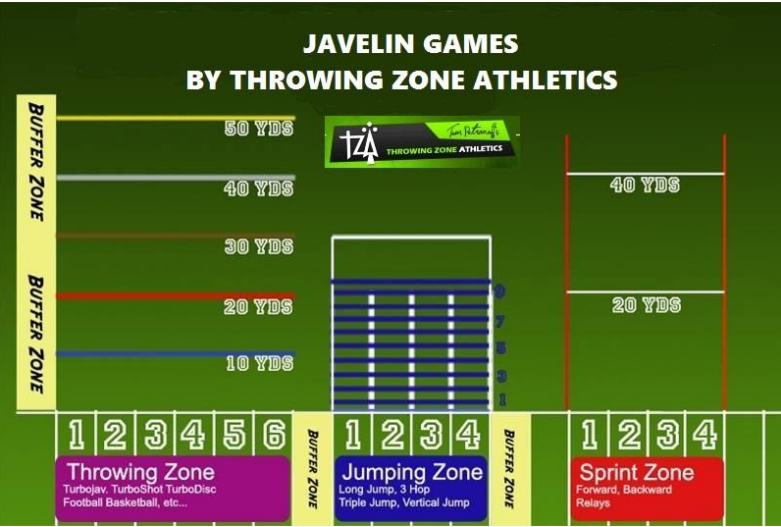

Throwing Zone Athletics (TZA) was started in 1990 by my wife Carolynn and I out of a desire to get young kids of South Africa interested in Track and Field events. The turbojav/mini javelin event was born in the townships of South Africa most dangerous township. Katlehong RSA. The program, named Olymkidz, was the first ever, run, jump and throw program in RSA townships. TZA started to go international in 1993. Mark Strawderman from M-F Athletics and Hiroyuki Iwashimizu who imported for Nishi both started ordering products. Then many more companies and individuals endorsed our products over the years and now this is our 23rd anniversary of doing business. 23 years is long time and over this period have refined our products and developed complete programs for youth participation in Track and Field events.

We are proud of our relationship with M-F and Nishi and feel it is time to work together to save athletics / Field and Track. In my opinion the USA market is still behind the rest of the world in putting together a cohesive program for youth starting in the elementary grades thru high school and beyond. Our programs are targeted not only to the students but also the coaches... to make their job easier. Many of today's students are not exposed, do not understand, and may feel intimidated by Track and Field events. Our programs have proven to be all inclusive for all abilities, easy to participate in, and most importantly...fun. The turbojav line 300/400/500/600/800gram has become an official event in many programs worldwide. Turbojav/Minijavelin have been official event for 17 years in USA, Japan, Canada, UK, South Africa, Australia, Hungary, Finland Elementary, Middle School markets, Unified Sports programs and Special Olympics worldwide. Our biggest growth in 2015/2016 is Special Education programs and Ministry of Education programs in several countries. We have turbo shot put and turbo hammer throw ready for market in 2017.

The turbo shot put has been part of our program for 5 years already. Our hammer throw is uses the turbo shot and we have built a weight throw type nylon net so we can teach hammer throw. One spin, two spin basic introduction kit. Then the Turbo Discus we will have ready for launch in 2018. The Turbo Discus will come in two sizes to complete our schools Throwing Zone events. The discus is most difficult event to teach and most dangerous event, so we have some work to do to make it right but we have the resources to do this.

The Turbojav and Turbo Shot put are ready to go and best of all, can be done indoors or outdoors. We have all the coaching DVD and Coaching booklets ready with a cool game system for skills testing and virtual competitions. This is plug and play ready guys. We created a worldwide USA vs The World schools throws program for school and special education markets.

TRAIN THE TRAINER

elementary > middle school > high school > all abilities

Start in elementary school at age 6-7 where we can educate and motivate what track and field is. Our products are very durable and Can be thrown indoors and outdoors. Our PE Games fit in the 30-40 minutes PE class. Train the trainer where PE teachers introduces basic game and Skills activities.

THE TARGET GAME

Accuracy Development

10 points for Orange bullseye

5 points for Green area

3 point for Purple area

Accuracy rules: target should be placed on wall or board at a height of 1m from the the bottom of the target. Use a strong tape to attach to the wall or you can staple the target to a wood-board.

Distance: 5 meters for elementary, and 10 meters for middle school. Throws are scored from the toe-board where the javelin hits the target.

THE THROWING GAMES

INDOOR AND OUTDOOR PROGRAMS – YEAR AROUND

FIRST STEP - MINI JAVELIN GAMES

SECOND STEP – MINI SHOTPUT GAMES

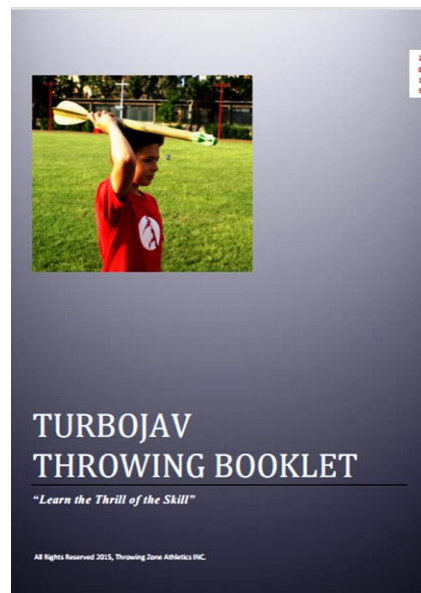

THIRD STEP – MINI DISCUS GAMES

FOURTH STEP – MINI HAMMER GAMES

ALL INFO AVAILABLE

-TRAINING BOOKLET

-JAVELIN GAMES

JAVELIN GAMES

RUN - JUMP - THROW PROGRAM

The key in our youth athletics program is **FUN!** The program is an educational and learning experience, offered as a great individual and team event.

The program can be set up for a small team, for a class of 25-30 students, or even at summer camps.

1. **Run 30m** / learn the start and using your speedy legs
2. **Jump** / Standing jump / learn how elasticity helps you to jump further
3. **TurboJav Mini JavelinThrow** / learn accuracy, find out how far you can throw

HAVE FUN & ENJOY THE GAMES!
